Subject: **Men's Retreat Follow Up**

Hey Guys,

Just following up with a couple things from last weekend's Men's Retreat. It was such a good retreat and I know that God used it to start shaking some things loose in many of us. Make sure you are talking to someone about the things you are still processing. It is really helpful to talk to your DC pastor, your group leader or other guys in your group.

Justin also wanted me to send along the pages that he had mentioned during one of the sessions. The first is the comparison between boys and men. You can use this to help you process through areas of growth and maturity. This was such a helpful comparison and I heard a lot of guys mention that they had never heard anything like this before.

The other page is the list of questions that will help you think through how to lead your wife. REMEMBER - this is not a quiz, and you should not read these questions off the page while you are talking with your wife. This is meant to be read by yourself to help you stir some thoughts of how to lead your wife. If we hear that you quizzed your wife with these questions...something will happen!

Let me know if you guys have any questions! It was fun spending the weekend with you guys. I am excited and encouraged to see how Jesus will use that retreat to help us along!
